Terra-Turf® Rubber Flooring

Maintenance Instructions

Routine Cleaning

Do not perform any maintenance or exposed the product to water or moisture for 96 hours after installation.

Terra-Turf Rubber Tiles require minimal maintenance, even when used in high traffic area. To ensure maximum life, tiles should be cleaned and maintained periodically.

1. As needed, inside areas should be vacuumed with a brush-type vacuum. Shampoo as required to remove heavy soiling and restore original color. Use a standard carpet shampoo or a mixture of 1 cup liquid detergent mixed to 1 gallon of water. Scrub tiles with a carpet shampoo machine or deck brush. Rinse with cold water and wet vacuum excess water from tile.
2. Outside areas can be hosed off on a regular basis.
3. To repair cigarette burns, brush damaged area with a wire brush.
4. Clean up gum or tar deposits with lacquer thinner or M.E.K. Use caution as most of these cleaners are flammable.

If questions arise that have not been addressed in the brochure, contact your local Johnsonite distributor for assistance or Johnsonite Customer Service at 1-800-899-8916.
