

# Harmonium xf™ tile program

With its recently updated color line, Johnsonite's Harmonium xf now increases design flexibility by adding 18 selected 19.49" x 19.49", 2.5mm tiles. With this addition option, Harmonium xf offers you a truly balanced solution. Sustainability, aesthetics and durability will help create high performance environments that will inspire people and make them more productive in many commercial environments such as healthcare, long-term care, education or corporate.

The eighteen colors shown below are standard in sheet and tile. The remaining Veneto products in this folder come standard in sheet form and are available in tile. Please call Johnsonite Customer Service at 1-800-899-8916 for details.
